Information regarding the product:

Trade name:

Product description:
(Model / type)

Use:

Production quantity/ year (€):

% of total turnover:

B Full declaration of materials

B.1 Components (except of Upholstery-/padding materials (foams) and coverings - see B.2)

Product name:							
Function description	Trade name / Material / Chemical designation	Manufacturer	Percentage in the product (mass %)	Safety data sheet		Technical info sheet	
				Available	Not available ^{*)}	Available	Not available ^{*)}
<i>e.g. surface finish</i>	<i>linseed oil ABC</i>	<i>DEF</i>	<i>5</i>		X	X	

^{*)} If no current safety data sheet/technical information sheet is present for a material used, please inquire with the respective manufacturer.

Please attach safety data sheets of all materials used!

B.2 Upholstery / padding materials (foams) and coverings

[illegible]

C Further requirements

Basic requirements / content requirements

C.1 Please tick as appropriate! If not applicable, please declare the relevant input substance under B1 (input substances)

The product is treated with biocide(s) e.g. moth repellent.

☐ Yes
☐ No

material safety datasheet (MSDS) is attached

Adhesives are used.

☐ Yes
☐ No

material safety datasheet (MSDS) is attached

Flame retardant(s) are used.

☐ Yes
☐ No

material safety datasheet (MSDS) is attached

Optical brighteners and/or other finishings are used.

☐ Yes
☐ No

material safety datasheet (MSDS) is attached

C.2 Special requirements / usability (relevant only for covering material from leather!)

Please tick as appropriate:

Perspiration resistance > 2 - 3

☐

Tensile strength > 12 N/mm²

☐

Tear resistance > 15 N/mm²

☐

Folding endurance: 5,000 dry cycles, 20,000 wet cycles

☐

C.3 Special requirements / origin of the timber

The timber production of the used tropical woods may not take place via exhaustive cultivation and must take place via sustainable forestry. Proof can be demonstrated with a relevant certificate (FSC or similarly recognised certification system).

Certificate is attached

Type of wood	Geographical origin	Certificate

Order confirmation

The pre-certification review (Evaluation of the product conformity with our basic requirements) should be conducted. The costs for this amount to € 250 net per product.

An individual offer is possible in the case of a number of similar products.

We hereby confirm that the data given overleaf is complete and true to our knowledge.
